Conditions the Worst Known
So Late in the Spring—
Trains Stalled.

(BY THE NEW ASSOCIATED PRESS—P.M.)

PITTSBURGH (Pa.) April 21.—

A widespread and most de-

structive storm, from a mar-

ital point of view, has passed.

It has left a zone of rain 200 miles

in diameter. It was unusual in that

it possessed so many different fea-

tures. Cities seventy miles from

Pittsburgh were tied up by one of

the worst snowstorms ever known.

While the snowfall was from 18

inches to 3 feet deep, which is not

extraordinary, the snow was so wet

that it clung in weighty masses to

shades and fruit trees and electric

wires and poles, bearing them to

the earth. It settled on steam and

street railways like wet sand, stop-

ping all traffic and making walking

almost impossible. The fall was

so heavy and spontaneous in some

places that the residents declare it

seemed like the bursting of a snow

cloud.

A few miles away from these un-

fortunate towns were municipali-

ties in just as dire straits from rain,

but with speedier prospect for re-

lief, as the rain will run off faster

than the snow can melt, yet here

traffic was practically suspended.

Water overflowed and washed out

railroad tracks and highways came

down and the traffic was stopped.

In addition, nearly every town on

the Ohio River between Pittsburgh

and Wheeling is in darkness tonight.

Electric-light plants or their wires

are damaged, and the gas in the

main is generally turned off to

prevent explosions. So half a mil-

lion or more people tonight are

groping about in the dark.

A remarkable feature of the storm

is that but few fatalities directly

attributable to this cause have been

reported. A railroad, caught in a

wreck caused by a landslide, and

the death of an old woman from

shock are the only ones known so

far. There may be others, but as

communication is cut off from

many populous places it will be the

end of the week before the total can

be counted up.

The money loss is just as difficult

to foot up. It may reach \$3,000,000.

The railroad think they have lost

\$1,000,000. The loss of wages to the

army of workers in manufacturing

plants up and down the river will

mount up to \$500,000, and repairs to

plants will be a large sum. The

damage to stores, stock, residences

and furniture in Pittsburgh, Alle-

gheny and towns and cities down

to foot up. It may reach \$3,000,000.

in our working people may be found in
the contempt expressed by so many of
them and their political representa-

the political manager of the Republican

evident relish that a poor Republi-

belong to the spirit of Christ. How
great the blessing that has in it the
purpose to elevate and benefit others!
We are the material God puts in
our reach, and with the opportu-
nity to honor as can do much to
neighbor. Love is to help the
human life. Solomon said: For
love is stronger than death. Many
cannot quench love, neither can the
floods drown it. With this power we
are able to rise above the selfishness
of the individual. Then, too, it enables
the individual to be definite and pos-
itive in his or her action. Nothing is
more disheartening than to see one
who is neither one thing nor the other
in the direction of his strongest
desires. Yes, well, then, is not that
strongest desire the compelling force,
the emotion that actuates and impels
us? Again, with all my might, I
move; I am not moved. As the
apostle said, "I move; I am not moved."
I am not a bit of mechanism, moved. I
am a living being."But, say, 'you do not always
move.' Yes, well, then, is not that
strongest desire the compelling force,
the emotion that actuates and impels
us? Again, with all my might, I
move; I am not moved. As the
apostle said, 'I move; I am not moved.'
I am not a bit of mechanism, moved. I
am a living being.""Every truly sane and reasonable
man and woman moves freely, in view
of the fact that it is not the desire to
desire to do this. But it is not the desire
that moves them. The unrea-
sonable man, who is not moved by the
strongest desire, is the man who is not
moved by the strongest desire. I move; I
am not moved. As the apostle said, 'I
move; I am not moved.' I am not a bit
of mechanism, moved. I am a living
being."The minister so addressed was Rev.

"deadly wound," there was no other
nation coming into prominence but
the United States, and it is evident that
this country alone is meant, for the
entire prophetic centers in America.
The character of the nation, with
"two horns like a lamb," but speaking
"like a dragon," was shown to suit
the description, both in its youthful
newness and its double elements of
strength, a republican form of gov-
ernment, and a Protestant form of re-
ligion.There are two horns, but there are
no crowns on the horns, as in the pre-
ceding prophecy. Again, in this, the
republican form of government is
contrasted with the monarchical gov-
ernments of the Old World.But this beast is to "make an image"
that shall be as the image of the
beast that was slain. A great wonder-
ful power is to be developed, but that
phase of the prophecy, having
been discussed, the speaker turned to
the development of spiritualism,
Christian Science and theosophy.
These were only touched upon last night.
An excellent question was asked: "What
strange devices of Satan will be given
next Sunday night, when a larger
audience will be on hand than ever
before?"The speaker answered that the
number of the beast, which is the
number of the man, will be given
next Sunday night, when a larger
audience will be on hand than ever
before. The speaker then turned to
